All royalties are charged at the royalty rate in force at the beginning of the licence year.

5. Inflation adjustment

Every year on 1st November, the monetary sums in this tariff will be adjusted for inflation. The adjustment formula will apply to the standard rates, using the mean (to the nearest whole percentage point) of the percentages by which the Retail Prices Index and Average Weekly Earnings index (unadjusted) change in the year to the previous June.

June is the latest month prior to the anniversary date for which figures are likely to be published for both indices.

After application of the inflation adjustment each royalty rate will be rounded to the nearest penny.
