

# Simon Webster

## Unisex Hair Salon

### About Simon Webster

- Established in Brighton in 2012, by husband and wife team, Simon and Sophie Webster, the independent hair salon offers a range of gender-free, community focused and sustainable services.
- Starting small, the salon now has a team of 22, lead by senior stylist himself, Simon Webster.
- Since launching they have been named Best Newcomer, Creative Colour Genius and Salon of the Year.

### Simon Webster play music to...

### How does music create the right atmosphere?

“Our salon tagline is style, music, fashion and what we try and do is bring all those different aspects in so the experience that you have when you go to the hair salon is as much about the music that’s played, the people you are sitting next to.”

### How important is music to Simon Webster?

“When we started, we wanted to create more of an experience than just having your hair cut so we held music events here and we’ve held artistic events here...it has that kind of feel to it that it’s not just about hair, it’s about coming in, having an experience with like-minded people.”

### What kind of music do Simon Webster play?

“We have hundreds of hours of playlists, which clients contribute to, sometimes we have local band members and musicians who, when they release anything, we incorporate that into our playlists.”
